

## Woodbridge Amateur Radio Club

### Member-Get-A-Member Drawing

Drawings for two (2) Baofeng BF-R3 Tri-Band Radio pre-programmed with PWCARES frequencies, W4IY repeaters, and other local repeaters and frequencies. One radio will be drawn to go to a current WARC member and one radio will be drawn to go to a new member joining the club with a paid membership in 2020 prior to the drawing.

Drawing is limited to dues paying WARC members having a valid FCC amateur license.

All WARC licensed members are challenged to sign up new members in the club to enter the drawing. Each member recruiting a new member must mark their FCC call sign on the member sponsor tab of the membership form for drawing entry. New members will enter their FCC call sign on the new member tab of the membership form for drawing entry and attach dues payment. Sponsoring members get one entry in the drawing for each new member sponsored (i.e., more than one entry is possible). The drawings for each radio will be held at the monthly club meeting on April 18th. Members must be present at the meeting to win. Alternate tickets will be drawn until winners are chosen.
